

• CREATE A TELEGRAM BOT

Please follow these steps to create a new bot from BotFather :

1. Open Bot Father: <https://t.me/botfather> 2.

Click on the *command bot* icon “[/]” then select **new bot**.

3. Write down the name of the bot, for example: *Reddit Programming*.

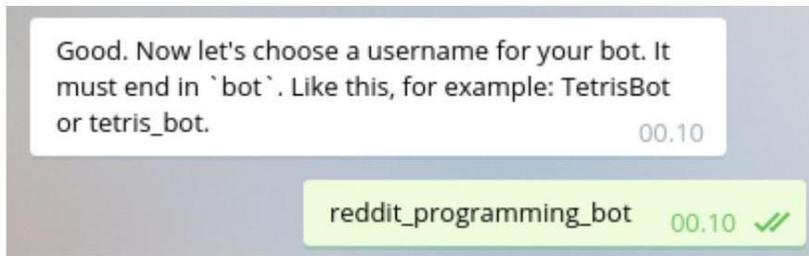

4. Then write down the username for the bot.

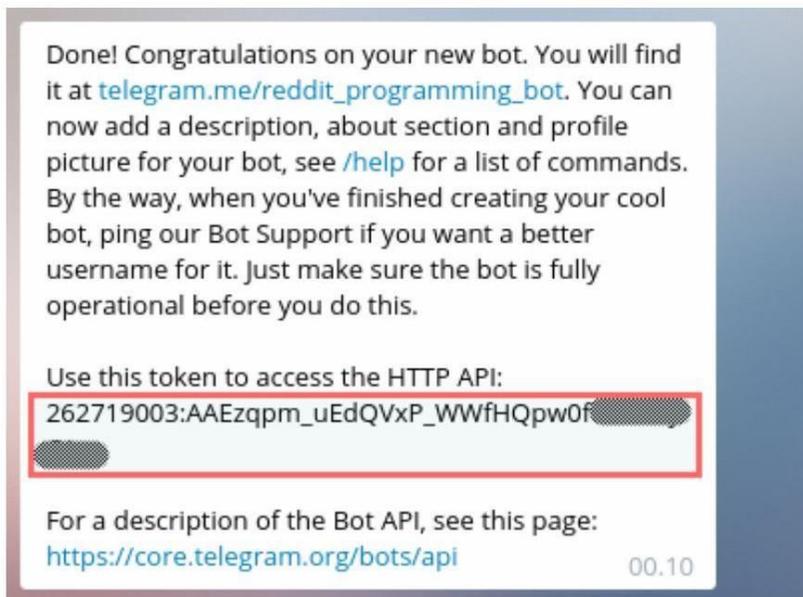

The username will be the unique name of the bot that we will create.

The username must end with the word "bot" after it .

Reddit_programming_bot example .

5. We will get an API token, please save this API which will be used later
Enter the INDICATOR

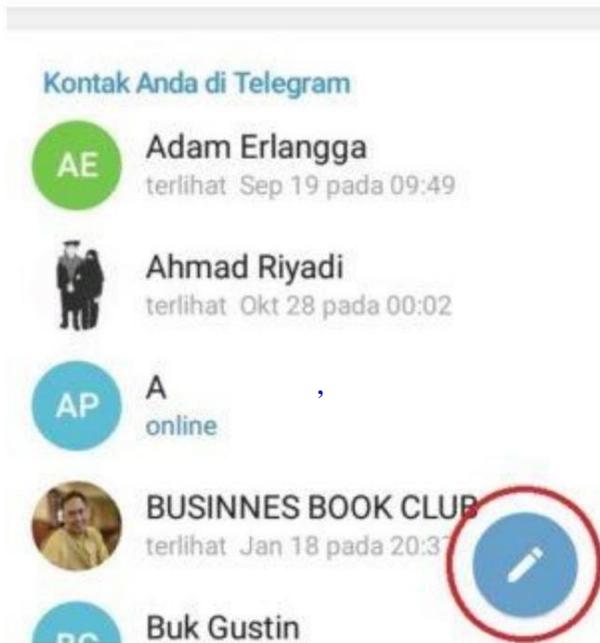

• CREATE A TELEGRAM CHANNEL

Please follow the steps below to create a telegram channel:

1. Make sure you have installed the Telegram application. Then open the app and select the pencil icon at the bottom right.

Mulai obrolan dengan menekan tombol pensil di pojok kanan bawah.

2. Then three available menu options will appear. Just select "New Channel" to create a channel.

Select "New Channel" to create a channel on Telegram

3. If this is the first time you want to create a new channel, a display will appear as shown in the picture. Select "Create Channel" to continue. The info page that appears for new users

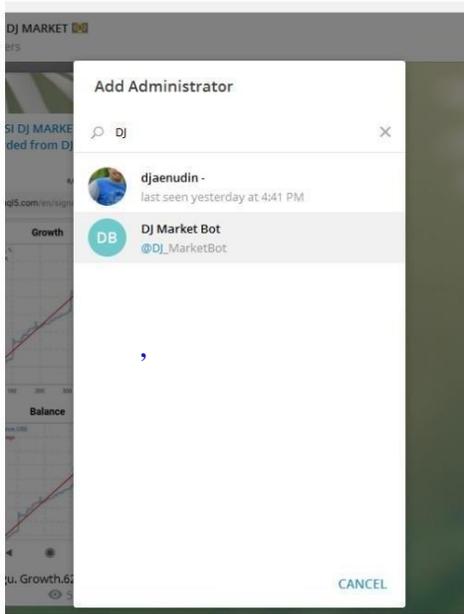

Apa itu Channel?

Channel adalah sarana untuk menyiarkan pesan Anda kepada banyak pengguna.

BUAT CHANNEL

4. Then you will be faced with a form to create a channel name and description. Fill in according to your original plan. If you already have a photo for the channel profile that you created, please add it directly. If so, save by selecting the checklist on the top right.

5. If you have selected "Public Channel", then you can create your own link address which will be found and shared by other people if they want to join your channel.

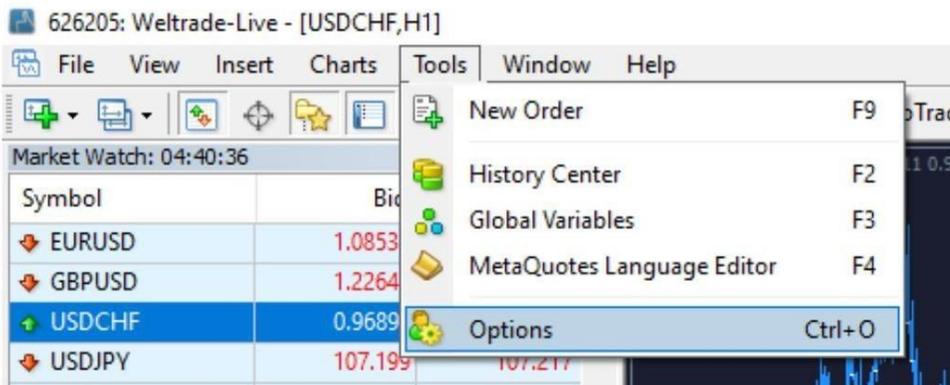

Please select "Link" or on the image that I gave a box. There you set yourself the appropriate link. If you have typed your link address and it is available, it means that the link address can be used. The link address will later be entered into DJ MARKET. If so, please save the settings by selecting the checklist at the top right.

- ENTER TOKEN AND CHANNEL ID INTO DJ MARKET

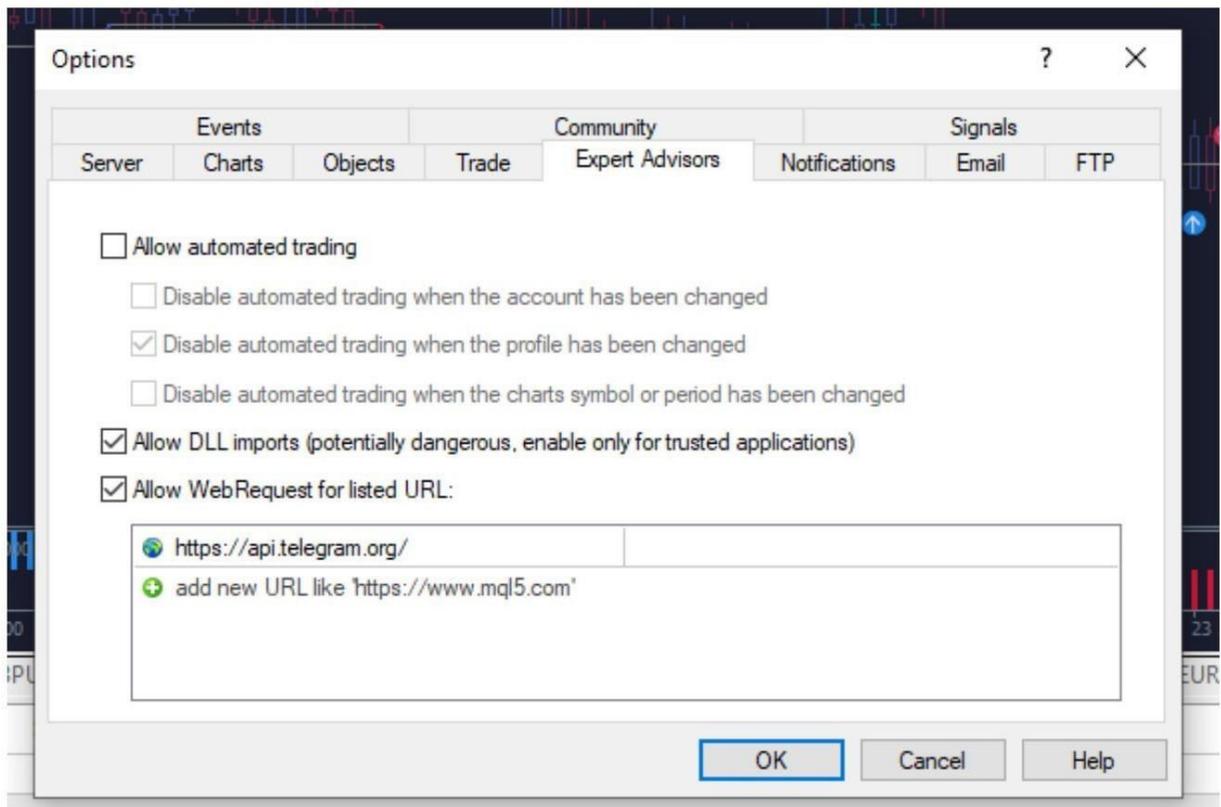

In the Telegram BOT String make it **True**
 For the BOT Token String, fill in the TOKEN that was created earlier and fill in the Chat Id with the channel id

Variable	Value
Alerts playing sound	false
Telegram Bot	false
Token Bot (ApiKey)	693869768:AAgmfUPFTAvREewXdy2m8...
Chat ID	@mandirfx
Signal ID	DJ Market
Alerts Sound File to use	alert2.wav
Buy Color	DodgerBlue

Go to the **Tools** menu and select **Options**

The final step is to open the **Expert Advisor** tab and add the url : <https://api.telegram.org>
Don't forget to check **Allow WebRequest**
