

# Holo Trade Assistant EA (Bonus)

What is it?

One-click trading assistant will help you open and close the trades in the blink of an eye!

Enter your desired lot size and then push the green BUY or RED sell button to open a trading position.

It further enables you to close ALL buy & Sell orders with one single click.

Experiment first on a demo account with it so you fully understand how it works!

## Installation

Install in the experts MT4 folder.

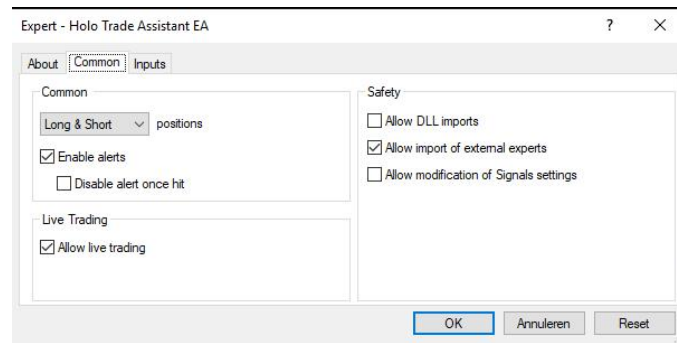

How? Click on file (MT4 top menu) > Open data folder > MQL4 > Experts (copy here)

Restart Metatrader 4

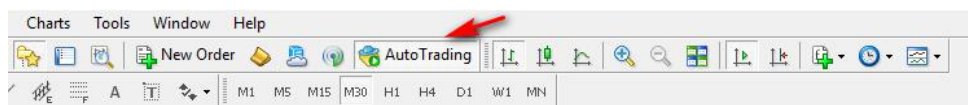

Finally, drag and drop it to a chart.

## Important

In order to get it to work, go to the Holo Trade Assistant EA common tab and enable "Allow live trading".

Furthermore, you'll need to enable the "AutoTrading" button found on the Metatrader 4 main menu.

That should be all to get it to work. Have fun!
