

Our Mission Your Profit

## ROBOT INSTALLATION STEPS:

1. Download and install **Meta trader 4** from the forex broker's website.
2. Open Meta trader 4 and go to Navigator panel (in left). Right click on Accounts and click on "**Login to trade account**". Put your **server name, ID and MT4 password** of real account (Check Broker client portal or client dashboard for these details)
3. Once account is added in Meta trader 4, copy the Mission Profit V5 Robot.ex4 file. Now in your Meta trader 4, select **File > Open Data Folder > MQL4 > Experts**. Paste the file "Mission Profit V5 Robot.ex4" which you copied into this folder.
4. Go to your MT4 software and in your Navigator panel, right click and refresh "Expert Advisor". You will see the EA "Mission Profit V5 Robot" added there.
5. Open a currency pair (EURUSD, GBPUSD or NZDUSD) with M15 window, drag the EA Mission Profit V5 Robot from navigator panel to the chart and go to inputs, paste the license key there. Then go to common settings and make sure all the check boxes are ticked.
6. Now Click on "Auto Trading" button on top. The Auto Trading button will turn from red to Green and the robot will open trades.
7. You can add the EA on more charts as required and again input the license key and check all the boxes in common settings each time.

Enjoy the profits!
